

## Letter of Good Reference

This letter is to certify that the construction company, Synergy successfully completed their works under the terms of our contract for Bandirma II CCPP, providing the Civil Works and building services under design and build contract in the Workshop and Warehouse and Gate House Buildings and General Civil Works Contractor for Completion of the Power Plant. Synergy Construction, as our chosen contractor, has executed with professionalism whole scope of work performing in collaboration with Project team containing;

- Design and Build Workshop and Warehouse Building - 1400 sqm - including Firefighting, building services
- Design and Build Gate House Building - 100 sqm - including Firefighting, building services
- Structure for Neutralization System (Closed Basin) -
- Infrastructure works for Oily water, sewage and rainwater system
- Structures in Desalination Area
- Finishing works of Control Building UAB, ULX, UGX
- Pipe Bridges
- Epoxy coating works

All above mentioned works were finalized with great precision, in line with the highest standards and expectations of Siemens and with an excellent safety and environment record. We, Siemens, would like to state that Synergy Construction team works with dedication and had a good coordination with our part. Their performance, constructive and helpful approach during the project allows us to recommend Them with confidence as a General Contractor.
